EXPERIENCE

VIEON COP OF DATVIETVAC ✦

3/2023-11/2023/

FRESHER FRONTEND SOFTWARE ENGINEER

I have worked at Vieon, a company specializing in product development. I have experience in developing web applications and apps for smart TVs. Working at Vieon has provided me with valuable insights into project management, deploying solutions for end-users, and implementing CI/CD processes.

FREELANCER ✦

6/2022-3/2023

BE AND FE DEVELOP

I work on various projects from home, customizing them according to client requests and adding additional features.

KNOWLEDGES

NextJS JQuery Hook Typescript ReactJs

Thunk Bootstrap Material Tailwind Css

NodeJS MySQL MongoDB git jira figma

Golang

HOBBIES

🎧 ⚽ 🏀

ABOUT ME

I have some programming experience, including building front-ends (using ReactJs, NextJS, and TypeScript), as well as some back-end experience (NodeJS, Postgresql, MySQL, MongoDB, …).
I have good time management skills, so I will handle tasks effectively. My communication skills are also good. I currently hold the title of a junior front-end developer and am committed to continuously improving my skills and expertise in this field.

EDUCATION

TON DUC THANG UNIVERSITY ✦

/ 2019-2023 /

I am studying at the university in the computer science field, so I can understand and analyze data, including big data, and I have completed numerous projects related to web development, data analysis, and big data.

SKILLS

CODING

✦ NextJS
✦ ReactJs/Hook/Redux/Thunk
✦ JavaScript/JQuery/TypeScript
✦ Bootstrap/Material/Ant Design/Tailwind CSS

BUSINESS

✦ Team Work
✦ Critical Thinking
✦ Communicate
